TECHNICAL EDUCATION

Fullstack Academy | Cybersecurity Analytics Bootcamp | Remote

August 2022 - November 2022

Full-time, immersive cyber security program designed to train in advanced red team/blue team skills and use of security tools.

Relevant coursework completed includes:

- Used packet capture tools such as Wireshark and TCPDump to investigate traffic for IOCs (Indicators of Compromise).
- Gained familiarity with a variety of tools including Snort, Splunk, Wireshark, Burp Suite, Metasploit, Nmap.

Upcoming relevant coursework will include:

SIEM, EDR, Perimeter Security, Application Security, System Hardening, Malware Detection, Configuration, Threat Hunting

EXPERIENCE

Remote Pilot Operator | SAIC | Oklahoma City, OK

June 2021 - August 2022

- Equipped 10+ peers and new hires with the knowledge and skills needed to pass their domain certifications.
- Received certification in all five domains within one year of employment after learning how to run FAA Academy simulations and gaining extensive knowledge of technical verbiage required to respond to situations quickly.
- Maintained realism and integrity of training simulation for FAA ATC Trainees.

Air Traffic Control Trainee | Federal Aviation Administration | Oklahoma City, OK

September 2020 - April 2021

- Learned policies and procedures for FAA practices in accordance with the 7110.65 and applied knowledge to real-world scenarios.

Maintenance Supervisor | Remington Ranch Apartments | San Antonio, TX

July 2017 - August 2018

- Prioritized tasks, developed a work schedule for maintenance staff, and supervised daily activities.
- Compiled a quick-reference sheet of appliance serial numbers by unit and common areas.
- Guaranteed the safety of residents by collaborating with the Resident Manager and conducting annual inspections of units, equipment, amenities, common areas, and grounds.
- Monitored and complied with ADA requests, communicating directly with ADA personnel to ensure compliance.
- Documented tenants' complaints and performed repairs within a 24-hour time frame.

Assistant Maintenance Supervisor | Villages at Lost Creek | San Antonio, TX

September 2013 - February 2014

- Conducted preventative maintenance on compressors, water systems, appliances, pools, HVAC, and other equipment.
- Classified maintenance performed, as emergency, preventative, corrective, or predictive.
- Self-taught knowledge of plumbing, electrical, carpentry, drywall repair, and painting.
- Experienced and productive within high-pressure team environments.
